OUR STORY

Whitewood Industries, John Thomas Furniture's parent company, was founded in 1982 as a manufacturer of solid wood, ready-to-finish furniture.

As a 40-year-old company, we've evolved greatly into becoming a leading supplier of both finished and unfinished furniture throughout the U.S.

We're proudly based in Thomasville, N.C. (a neighboring city to High Point, NC, the city known and widely recognized as being "the furniture capital of the world") where we employ over 300 dedicated North Carolinian craftsmen.

Today, there are four divisions under our company brand: Whitewood Ready-To-Finish (unfinished furniture), John Thomas Furniture (casual dining and custom finish programs), International Concepts (a supplier to specialty retailers), and Custom Contract Furnishings (designer/manufacturer contract upholstery).

With this, we've kept one thing intact, one mission — offer the most beautiful, quality home furnishings at a tremendous value.

We hope you'll choose John Thomas Furniture to be your next home furnishings. We do appreciate your confidence and trust, and will consider it an honor to become part of your home.

www.johnthomasfurniture.com

An Employee Owned Company

Our solid wood...

More than ever, being environmentally conscious and responsible is a part of our lives. Manufacturing processes, waste management, use of natural resources, and more affect our quality of life. We also recognize that home furnishings have a positive or negative impact on our environment. For this reason, as well as the sheer beauty and quality of our wood, over 95% of all our products are proudly crafted in Parawood — an extremely dense plantation-grown hardwood.

Parawood is the tree in which latex is produced (often referred to as rubberwood). For approximately 10+ years, the tree is tapped to extract the latex, much the same manner syrup is tapped from a maple tree. At that average time, the tree naturally ceases to produce latex and is cut down for the manufacturing of furniture. For every tree cut, a new tree is planted as a replacement, harmoniously maintaining natural balance.

Parawood beyond the bark: Scientific name - *Hevea Brasiliensis*, Density - 7+ (similar to Birch or Ash), Strength group - B6 (same as maple). All this makes it a very durable hardwood and one of the most widely used hardwoods in home furnishings.

Our commitment...

All of our furniture is guaranteed for one year against all manufacturing defects. All damages such as scratches, gashed, broken corners, and finish or fabric imperfections must be reported within 30 days from the date of delivery.

QUALITY STARTS WITH A VISION.

Many companies have great looking furniture, but looks aren't everything, and they're certainly not enough. It's what's on the inside that counts. Furnishings are an investment, a big, long-term investment and just like with any investment, you can make a good one or a bad one. We're proud of our quality story, it's one of the biggest things that sets us apart, and above.

Our finish...

It's what sets us apart. We use pre-catalyzed clear conversion coatings. Our coatings are non-yellowing and HAP-free (hazardous air pollutant) while offering outstanding UV resistance. All our coatings have undergone rigorous quality testing to verify performance and application characteristics. We received the highest resistance ratings against the following household chemicals: Vinegar, Juices, Ketchup, Olive Oil, Hot/Cold Water, Nail Polish Remover, Ammonia, Alcohol, Windex, Lysol, 409, Coffee, and Wine, among others.

No natural wood product/finish is indestructible, so we recommend the following tips for care and extended life: cleaning is easy – a damp cloth is all that's needed, avoid placing your furniture in direct sunlight for extended amounts of time, avoid placing your furniture near heating vents or wood burning stoves, and lastly, we recommend using placemats or table mats for extra protection.

Our tables feature...

- Reinforced Corner Block Bolts with 1/2" bolts & locking nuts/washers for maximum stability.
- Folding Leaf Hinges to enable the leaf to store flat as well as add leaf apron protection.
- Apron Stabilizers to ensure strength and stability of the table.
- Metal Ball Bearing Extension Glides (instead of other standard wood gear extensions) to make for a seamless, smooth transition from smaller to larger dining.
- Gap Covers to ensure that aprons are continuous and allow for minor table expansion due to drastic climate changes.
- Self Storing Butterfly Leaf (Leaves) to save space.

Our chairs feature...

- Leg Stretchers to ensure chair legs do not loosen from strenuous and everyday use.
**Leg Stretchers are both glued and screwed in place.*
- Solid Wood Construction (all parts and components)
- Reinforced Corner Block Bolts with 1/4" bolts & locking nuts/washers for maximum stability.
**Custom Finished Chairs are leveled ensuring stability.*
**Custom upholstery seat options are all manufactured in the U.S.*

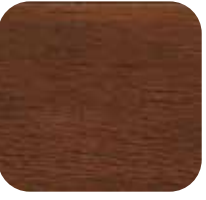

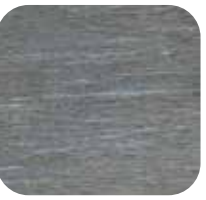

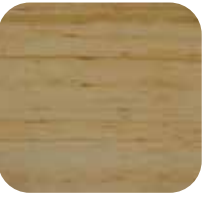

Our bedroom/storage furnishings feature...

- English and French dovetail drawers
- Solid wood construction

Care...

- Sunlight is one of nature's elements that can cause damaging effects to your new furniture. It is preferable not to expose your furniture to direct sunlight for long periods of time and to leave your table leaf extensions in place to ensure the uniform aging of your finish.
- Our finishes take up to 21 days after the delivery date to fully cure. Prior to this date, use your furniture with care.
- Cleaning is easy — a damp cloth is all you need. For everyday use, we recommend using fabric placemats, trivets with FELT protectors, and table pads to protect against scratches, dings or dents and immediately wiping away any spilled liquids.
- Avoid putting extremely hot or cold objects in direct contact with a wood surface. Extreme temperatures can cause discoloration to the wood finish and may cause permanent and irreparable damage.

SELECT HD

by John Thomas
FURNITURE

Most commonly referred to as "hand distressed" or "premium distressed" SELECT HD is precisely both! The process in which we create SELECT HD is done by hand one piece at a time, resulting in no two pieces looking the same.

SELECT HD is a finish that represents the natural hardships of time with random chain marks, wormholes and hand brushed stain and glazing, as well as edges being worn, darkened and rasped to create a unique look of old world charm. For this reason we cannot assure an exact match from the finish samples provided to our dealers to the finished product delivered to the consumer.

Each piece produced in our HD finish will have its own uniqueness and character. Exact matches are not achievable or guaranteed.

Key Features

100% solid wood

Finish includes pre-catalyzed clear conversion coatings, which are non-yellowing HAP's (hazardous air pollutants) free, and offer outstanding UV resistance

Tables feature reinforced corner block bolts with 1/2" bolts & locking nuts/washers for maximum stability

Extension tables feature self storing butterfly leaves to save space

Did you know?

Tables with leaves feature folding leaf hinges to enable the leaf to store flat as well as add leaf apron protection

Whitewood Industries Sustainability Efforts

All corrugated materials (cardboard) used in packaging and shipping are collected, compressed, bailed, and repurposed by a local recycling center. Whitewood Industries recycles 150,00 pounds of corrugated material each year.

Plastics bags used in packaging and shipping are collected, compressed, bailed, and repurposed by a local recycling center. Whitewood Industries recycles 10,000 pounds of plastics each year.

Damaged wood, or wood that does not meet our quality standards, is repurposed by a local wood recycler into various forms of particle board.

Whitewood Industries recycles up to 600 cubic yards of solid wood material each year. It is our utmost desire to carefully consider, and respectfully care, for our environment.

BUILD YOUR OWN PEDESTAL TABLE

*Small space? Big space? Traditional, or contemporary?
Butterfly leaf for extra seating as needed, or a solid wood top?
Whatever is needed, you can create it.
With our BUILD YOUR OWN PEDESTAL TABLE program,
it's simple, easy and most importantly it's YOURS.*

COASTAL CLASSICS

A portion of all Coastal Classics sales will be donated to CCA and their efforts for coastal conservation.

THE PURPOSE OF CCA IS TO ADVISE AND EDUCATE THE PUBLIC ON CONSERVATION OF MARINE RESOURCES. THE OBJECTIVE OF CCA IS TO CONSERVE, PROMOTE, FUTURE AVAILABILITY OF THOSE COASTAL RESOURCES FOR THE BENEFIT AND ENJOYMENT OF THE GENERAL PUBLIC.

Nautical Compass Top

Mark your spot with our L&L table!

Personalize your space, with artwork of your exact longitude/latitude.

How it works (it's as easy as 1,2,3):

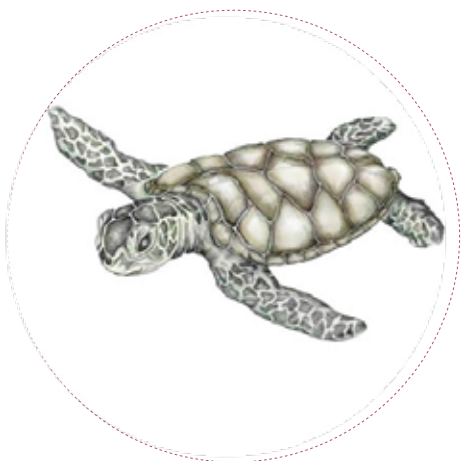

- ① *find your coordinates*
- ② *provide your coordinates, along with your custom table name (location, family name, you choose!)*
- ③ *enjoy your one-of-a-kind creation!*

Ideas:

coordinates

- + Home Sweet Home
- + Smith Family Home
- + Blue Ridge Mountains
- + Lake Tahoe
- + Clearwater Beach
- + No Place Like Home

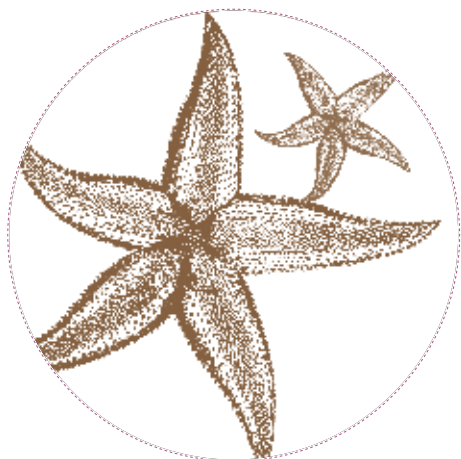

Turtle

Crabs

Nautical Compass

Starfish

Shell

Choose Your Art, Choose Your Table Top, Choose Your Base

Eligible on all solid top table tops.

Coastal Classics features five art patterns and one customizable Longitude/Latitude design, all of which are etched into the natural wood of your table top to lock in a unique look for many years to come. Be creative, create a Coastal Classic!

For a more casual look, high dining is the answer. Slip off a stool, grab the bread from the oven, and keep the conversation going. It's light and fun, relaxed dining at its best.

Commercial Grade Seating

- Modified Square Base Stretchers
 - L Brackets on Major Stress Points
 - Small Assortment of Qualified Chairs
-

As the demand for this category grows, we've made various engineering changes, such as larger square shaped stretchers, to maximize the strength and durability of a select assortment of chairs. Selected chairs passed required stress test and met various engineering specs.

Commercial Grade Seating is identified as **Ci-//**.
Chairs without the "i" in the item# do not qualify.

You must indicate, when ordering, the intention to use these chairs in commercial applications. Chairs ordered for commercial applications will also be enforced with "L" brackets at major stress joints.

Benches are the ultimate in casual. They too add interest. They open a room by not taking up visual space with a back. So, whether you're visually making more space, or creating a hunker-down, elbow-to-elbow feel, benches are a great addition to any home.

Stools are one of the most used furnishings in the home today, and not surprisingly, grace in some form or fashion, almost every home in America. Because it's light and compact, a stool can be used just about anywhere.
